Johnson, Chris. J., Libby .P.W. Ehlers and Dale.R Seip. (2015). **Witnessing Extinction - Cumulative impacts across landscapes and the future loss of an evolutionary significant unit of woodland caribou in Canada.** Biological Conservation **186**: 176 - 186.

Festa-Bianchet, M., J.C. Ray, S. Boutin, S.D. Cote and A. Gunn. (2011). **Conservation of caribou (*Rangifer tarandus*) in Canada: and uncertain future.** Canadian Journal of Zoology **89**: 419 - 434.

Wasser, Samuel K., Jonah L Keim, Mark L Taper and Subhash R Lele. (2011). **The influences of wolf predation, habitat loss, and human activity on caribou and moose in the Alberta oil sands.** Frontiers in Ecology and the Environment.; doi: 10.1890/100071.

Libby P. W. Ehlers, Chris J. Johnson, Dale R. Seip (2014). **Movement ecology of wolves across an industrial landscape supporting threatened populations of woodland caribou.** Landscape Ecology **29**, 451-465.

Hebblewhite, M., C. White and M. Musiani. (2009). **Revisiting Extinction in National Parks: Mountain Caribou in Banff.** Conservation Biology **24**(1): 341-344.

Ineffective and Unethical wolf killing in AB: A recent study in Alberta (which was highly criticised for its unethical treatment of animals) revealed that killing more than 800 wolves over a 7 year period in an area used by the Little Smokey Caribou herd did nothing to significantly increase caribou female recruitment nor calf survivorship numbers. Original article : Dave Hervieux, Mark Hebblewhite, Dave Stepnisky, Michelle Bacon, and Stan Boutin. (2015). **Managing wolves (*Canis lupus*) to recover threatened woodland caribou (*Rangifer tarandus caribou*) in Alberta.** Canadian Journal of Zoology. **92**:1029 - 1037

And view 2 powerful rebuttals from leading experts about this experiment:
